

Is it necessary to wash packaging to be recycled?

Dirty packaging could cause sanitation health troubles. But there is no need using water. So just wipe them.

Can you put the small pieces of papers in the dustbin with yellow lid?

The very small elements and the residues of shredded paper mixed in packaging make sorting very difficult.

In collective buildings, the sorting is made easier with the «TRISAC»

In collective buildings, every home will receive its «TRISAC» to make the connection with the nearest dustbin. Easy!

Document réalisé par la Communauté d'agglomération Tour(s)plus :

Here, like you do at home, protect the environment,
sort waste!

EDITION 2008

THE PRACTICAL GUIDE TO WASTE SORTING

www.agglo-tours.fr

together, let us sort out to recycle better ...

To sort out, you have two equipments

Waste sorting,
we *all* have
a vested interest!

A dustbin with yellow lid at home

The dustbin with yellow lid

Put in it loose packaging,
newspapers and magazines.

*Collected next to your door once
a week.*

...and bottle bank in your district.

The bottle bank

Put down bottles, jars
and glass jars there.

*NB : according to your district, the collective bottle bank
can be different from represented opposite.*

The residual household refuse is always to be put down
in bags, in your usual garbage.

together, let us sort out to recycle better ...

Waste sorting,
we *all* have
a vested interest!

plastic bottles

I put them in bulk and empty
them in the dustbin with **yellow lid**

▶ transparent bottles:
water, fruit juice, soft
drinks...

▶ bottles of softener fabric,
washing powder, washing up
liquid, bleach, domestic
home cleaner...

▶ milk, soup
bottles...

▶ toiletteries

▶ wine boxes

Warning, waste not recyclables to throw in to the dustbin of domestic garbage

Films and plastic bags

Flammable products

Small plastic products or polystyrene

together, let us sort out to recycle better ...

Waste sorting,
we *all* have
a vested interest!

metal boxes

I put them in bulk and empty them
in the dustbin with **yellow lid**

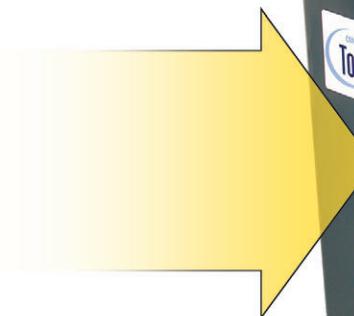

▶ tincans and tins

▶ sprays and tins

▶ aluminium pastry
boats

Warning, waste not recyclables to throw in to the dustbin of domestic garbage

Tins with scraps

together, let us sort out to recycle better ...

brick, newspaper, magazines

Waste sorting,
we *all* have
a vested interest!

I put them in bulk and empty them
in the dustbin with **yellow lid**

➤ soup, milk, fruit juice
cartons

➤ cardboard boxes

➤ newspapers, leaflets
and magazines

Warning, waste not recyclables to throw in to the dustbin of domestic garbage

Spoiled or dirty paper

Cellophane film

Tiffues

Wallpaper

Shredded paper and bus tickets ...

together, let us sort out to recycle better ...

Waste sorting,
we *all* have
a vested interest!

glass bottles and jars

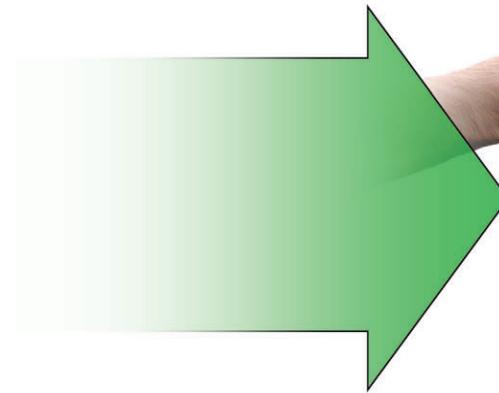

I put them in bulk and empty
them **in the bottle bank**
without cork, capsule, lids

> bottles

> jars

Warning, waste not recyclables to throw in to the dustbin of domestic garbage

Flower pots

Dishes, cookware, china

Light bulbs

Broken glass or mirrors, windscreen
